

STONY PLAIN SUN.

VOLUME SEVEN.

STONY PLAIN. ALBERTA. THURSDAY. JUNE 30. 1927.

Whole Number 360

Edmonton Exhibition.

In order that the Edmonton Exhibition July 18 to 23, this year, may be even better than that of 1929, the Exhibition Association are doing all in their power to stimulate the interest and enthusiasm of the people of Edmonton and surrounding districts.

There has been a \$5000 increase in the prize money, which now totals \$60,000, and new classes have been added in almost every section of the prize list. There are classes for horses, cattle, sheep, swine, poultry, dogs, etc.; district exhibits; arts and crafts; and special classes for cooking and needle work for women and children.

Prize lists may be obtained free on request at Exhibition Offices in Arena building. All Entries close July 4.

The monster Pageant, 1,000 people participating, will be something seldom seen outside the British Isles, where pageantry has reached the same of perfection—gorgeous costumes, clever acting, wonderful lighting effects; everything in this pageant will be perfect.

The Australian National Band will be the outstanding musical attraction of Edmonton Exhibition. Visitors are assured of the most interesting program ever seen at Edmonton Exhibition.

The Exhibition Association has arranged for a Free Camping Ground for auto parties of out-of-town Exhibition guests.

O Canada, our home, our native land !
True patriot love in all thy sons command,
With glowing hearts we see thee rise,
The True North, strong and free,
And stand on guard, O Canada,
We stand on guard for thee, O Canada, glorious and free,
We stand on guard, we stand on guard for thee !
O Canada, we stand on guard for thee !

LOCAL NEWS.

Const. D. W. Pattie, Rocky Mountain House, was a Stony visitor on Tuesday.

Miss Beatrice Opgordon, who had been visiting here with her sister, Mrs. A. E. Michael, has gone to her home near Hallirkir.

Mr and Mrs A. E. Michael are leaving on Saturday, July 2d, for a fortnights motor trip thru Southern Alberta, going first to Hallirkir.

Mr Ph Miller of the Royal Hotel is expected back in Stony this evening, after having spent 3 weeks at Banff Springs.

Mr Clement Wildman, who has been attending Stony Plain High School, leaves at the end of the week for his home at Turtleford, Sask.

Mr and Mrs Frank Kimmerley and Miss Matilda left on Saturday for San Antonio, Texas. Previous to their leaving, they were given a very hearty send-off by their friends and neighbors, at Holborn Hall.

Eddie Ulmer of Concordia College who had been visiting friends in Stony, has gone to Vancouver, to spend vacation with his parents.

The Canadian National Ry. is running trains to Wabamun and Seba tomorrow and Saturday.

The Departmental exams. closed, this week, at the local school.

The Ladies' Aid of St Matthew Church (Missouri Synod) had a special meeting Sunday evening, at the home of Mrs M Foerster.

The rumor current in Society the latter part of last week that one of Stony's business men had gone to Leduc to get hooked-up proved to be incorrect, as Bill returned to town on Friday, all alone.

Another old timer of Stony Plain district passed away in the person of Mr John Hrabczuk, who has been living a short distance northwest of town. He was found dead on Friday morning, by his wife, who summoned Dr Oatway. Deceased was in his 54th year, and had lived in Golden Spike and Stony districts for over a quarter of a century, and was still actively engaged in farming operations up to the time of his death. His death is said to be due to his mistake in drinking from the wrong bottle while taking refreshments in the dark. The funeral took place on Saturday, to the Ruthenian cemetery at Curvel.

M. M. Mecklenburg, the well-known optical specialist, will be at the Royal Hotel, Stony Plain, on Thursday, June 30th. See him and see well.

Ottawa Should Co-Operate

The Manitoba Court of Appeal has declared ultra vires the Manitoba Sale of Shares Act and the Municipal and Public Utilities Board, insofar as these enactments purport in any way to control the sale of shares in that Province of a Company incorporated under a Dominion charter. This decision follows one by the Supreme Court of Canada which, in effect, decided that when there is a conflict of authority between Provincial and Dominion legislation, the latter prevails.

In other words, all that is necessary for stock promoters to do in order to get around the measures set up by the Provinces to protect their people from being victimized by unscrupulous promoters of doubtful stocks is for them to secure incorporation at Ottawa. Inasmuch as the Ottawa Government has provided no proper check upon the stock selling operations of Dominion incorporated companies, it means that they may do pretty much as they please.

In view of these judgments, and the failure as yet of the Ottawa Government to take action as has been repeatedly urged by the Provinces, it is gratifying to note that Western Provincial Governments are again recommending that this whole subject be placed on the agenda for the Conference to be held at Ottawa this Fall between representatives of the Dominion and the several Provincial Governments. Ottawa is being asked to supplement the legislation of the Provinces by the enactment of legislation regulating the sale of shares and securities of Dominion companies.

The Ottawa Government should be just as keen to protect all the people of Canada as the Governments of the Provinces are to protect their citizens, and it is beyond the comprehension of the average citizen to understand why the Dominion has so consistently refused to do so.

This year of Canada's Diamond Jubilee the people of Canada are being urged to forget all sectional differences and to emulate the Fathers of Confederation in working untiringly to build up and strengthen the Dominion as a national unit. Any causes of friction between the Federal Government and the Province is a source of national weakness, making for disunion. If any Province feels that Ottawa is not fully seconding their efforts on behalf of their people, the result is to weaken Confederation and that devolves and largely to all: proud and loyal to their citizenship of a great and growing nation.

Canada could hardly have a better national watchdog, and in this matter of regulation of the sale of shares and securities of Dominion companies, it is high time the Ottawa Government reversed its attitude, and instead of denying the very reasonable requests of the Provinces, proceeded to wholeheartedly co-operate with them in the common interests of all. The Provinces are not asking the Dominion to abrogate any of its powers, but to exercise them in full co-operation with the Provinces, rather than, by neglect, leaving the Provinces at the mercy of all and sundry who, in order to get around legitimate Provincial laws, obtain Dominion incorporation and then defy the Provinces.

This is not co-operation on the part of the Dominion Government. It is not an attitude that tends to create loyalty to Confederation. Persisted in, it will weaken the national tie. Legitimate companies and promoters do not seek to evade Provincial control in this way; it is the doubtful stock-selling proposition and the dishonest promoter who is being assisted because of Ottawa's refusal to join hands with the Provinces in the protection of all the people.

It is to be hoped that the authorities at Ottawa will catch the true spirit of the Diamond Jubilee, put their house in order in this matter, and co-operate with the Provinces.

Artificial Cotton Feasible

Another Useful Product Can be Made From Wood Pulp

Now that Canadians have become quite accustomed to their rayon silk hose and underwear, it is time chemists furnished another startling example of the multiplicity of useful products which can be made from wood pulp. This time it is the prediction of Dr. H. L. Barnes, of the Canadian University, recently speaking at the Chemistry Convention, recently he said: "One method by which we can extend the usefulness of our pulp is by substituting it in Canada for cotton in all its forms. This is being attempted by the chemists of the Dominion today and it is feasible. The successful substitutions of wood pulp for cotton would benefit Canada in many ways."

Visitor (at seashore): "I suppose there's no danger in bathing here?"

Old Native: "Ter' bleas yor, no sir. All ye have to do is to keep away from the sharks an' the strong currents."

Needs for Wider Education

University Leaders Should Tackle Problems of Nations Says Currie

Sir Arthur Currie, president of the National Conference of Canadian Universities, pleads for a wider field of education. He believes that university leaders should tackle the vital problems of the nations. Government, he says, would resent intervention, but they would likely accept the consultative services of the conference.

Sir Arthur touches on a vital question in education. It is, in short, a question which affects the very life of the future university. It is a problem of bridging the gap between the academic and the practical.

A correspondent notes a man in Chicago ran over a girl while driving a tall where he was giving a lecture on "Public Safety" and suggests that he begin his address to the Judge with: "Unaccustomed as I am to public speaking . . ."

Minard's Liniment for insect bites.

Growth of Calgary

Calgary's population is estimated at 8,880 by the 1927 Henderson City Directory, a copy of which has been received at the Herald office. The directory's census for 1927 shows an increase of 3,900 over that of 1926. The Dominion census of 1926 gives the population of Calgary as 65,512.

Will Discuss World Population

Experts Going into Subject at Geneva Conference This Summer

Has the world too many people, and, if so, what is to be done about it?

This question will be considered at a World Population Conference at Geneva from Aug. 31 to Sept. 2. It is the first conference of its kind ever to be held and will bring together biological, sociological and statistical authorities who have gone far into the study of the population problem, but who have never assembled at a common meeting table to exchange their views and co-ordinate their knowledge.

An advance notice issued by the Advisory Council says: "The question of population growth holds possibilities of menace to the future of civilization, and yet the world population problem is one of the few great issues of today which have not been the subject of concerted international action."

An advance notice issued by the Advisory Council says:

How Education and Training Helps the Farmer to Meet Highest Measure of Success

Even at this late day farmers are still to be found, here and there, who ridicule the idea that college courses in agriculture, or higher education in general, can benefit the farming industry. They decry the investigation of scientific methods and the application of these to farming questions and problems. But, apart altogether from the fact that higher education opens the door to intellectual enjoyments invaluable to every individual man and woman, it is worth while examining the situation from the lower standpoint of dollars and cents. President Glenn Frank, of the University of Wisconsin, who has been investigating the matter, asks whether it pays the boy who wants to be a farmer to go to school, and presents various facts he has unearthed that arrest attention. He mentions that no less than twelve agricultural states in the Republic have made surveys for the purpose of tracing just what effect common school, high school and college training has upon the breeding capacity of the farmer.

In Texas it was discovered that an uneducated farmer might earn \$1,000 in forty years, while a farmer who spent twelve of the forty years in school might earn \$10,000 in the same period. That is to say, the farmer who spent twelve years in school will earn \$20,000 more in forty years than the farmer who never went to school. In the twelve years the Texas lad will have spent 2,160 days in school. These 2,160 days in school will net him \$20,000 by the end of forty years, or an average of about \$9.35 a day for every day spent in school. Not bad wages! President Frank comments.

In Georgia it was discovered that the annual net profit of the uneducated farmer is about \$20, while the annual net profit of the farmer with a common school education is \$665.50; the annual net profit of the farmer with a high school education is \$664.50, while the annual net profit of the farmer who has completed an agricultural college course is \$1,354.

Wisconsin's experiments showed that the farmer with a high school education acquires the ownership of their farms in about seven years. But farmers with only a common school education took about ten years to acquire a clear title to their lands. Indiana, Illinois, Iowa and Kansas had the same story to tell. In all these states, and whether in owner or tenant class, the better educated farmers were earning the higher incomes.

President Frank concludes from these discoveries that in farming as in other vocations, one's wagon had better be hitched to a star than a steer.

Beats Record for Size

Hen Lays Five Ounce Egg Containing Three Yolks

A despatch from Revelstoke, B.C., states that a White Leghorn pullet, belonging to Alf Graver, of that city, has laid an egg that beats all size records known in that part of the country. It measured 7 inches in circumference around the middle, and 9 inches over the ends; the long way of the oval, and weighed five ounces. When opened the egg was found to contain three full-sized yolks. Another remarkable feature of this hen's achievement lies in the fact that she has been laying eggs almost as large as this since she was five months old. She has never been known to lay an average-sized egg.

Radio Business Resumes

The Dominion Bureau of Statistics reports production of radio sets, parts and batteries in Canada during 1926 valued at \$6,277,544, or almost a million dollars below the 1925 figure. Returns were received from 41 establishments in this field.

In Palestine two stone tablets have been dug up, which authorities say furnish proof of the captivity of the Jews in Egypt.

Some men tell the truth and then try to lie out of it.

Canada's Telegraph Service

Number of Messages Handled Last Year Shows Big Increase

Dominion statistics recently issued show that more than 12,000,000 telegrams were sent out in Canada last year, over various lines, representing an increase over the preceding year of 162,094 telegrams, or 6.6 per cent. The Canadian National Company handled 5,538,396 messages, the Canadian Pacific Company, 5,162,551 messages, Western Union, 719,183; Dominion Government service, 532,796; Teekinsland and Northern Ontario, 130,770; North American Telegraph, 12,234; and Marconi Wireless, 22,234. No less than 2,701,000 messages were received in Canada from United States sources.

A total of 1,019,825 cables were sent from Canada last year, and 405,406 cables were received. Money transmitted by wire increased in proportion, last year's total being \$7,790,127, or over a million dollars increase.

The report shows Ontario to have the greatest wire mileage with 109,202 miles; Saskatchewan, 37,961 miles, and Quebec 35,356 miles. The Canadian National has 1,822 offices in Canada and the Canadian Pacific 1,510 offices, and the Dominion Government service, 1,066. The revenue brought into Canada by its wire services is about ten millions and a half.

Winnipeg Newspaper Union

A Fetching New Frock

Of smart individuality is this attractive frock. The flared skirt is joined to the bodice, while the back is in one piece. The bodice is finished with a wide collar and flared cuffs finishing the long drap-fitted sleeves, and is trimmed with an Egyptian design at the front and on the belt. Very attractive is the wide collar and cuffs omitted and the V-neck simply bound, while buttons adorn the front vest effect of contrasting mate. No. 1570 is in 16, 18 and 20 yards of material (46 yards) and 3½ yards 39-inch material, or 2½ yards 54-inch, and ½ yard 36-inch contrasting material for vest. In view of the popularity of this Transfer Design No. 1390, the Blue or Yellow, is used for this. View A. Price 20 cents the pattern.

Every woman's desire is to achieve that unique, different appearance which draws favorable comment from the observing public. The designs illustrated in our new Fashion Book are original and unique in style and colors and will help you to acquire that much desired air of individuality. Price of the book 10 cents per copy.

The Favorable Prospects

Good Year is Indicated For the Farmers of the West.

Despite the delay in sowing caused by backward weather the Western crop outlook becomes more encouraging with the passing of time. A recent report from Winnipeg stated that the acreage sown to wheat this year was placed at 17,500,000, as compared with 21,000,000 acres last year, but that the harvest may equal the bumper crop taken in 1915 from 12,000,000 acres. The decline from 1916 in acreage is not all lost, however, as much of the land not put into wheat is being used for coarse grain.

Alberta has not suffered like the other Prairie Provinces. So far, the wheat crop is being taken off the field. Growth is proceeding normally. In both Saskatchewan and Manitoba, and the reduced acreage is not causing unequalled dissatisfaction. Saskatchewan Farmer points out that prevailing conditions will give the farmers an opportunity to put up a good fight this year against weeds, which are becoming an ever-greater problem, while there will be more summer-fallowing and intertiling than usual. Besides this, the excessive moisture has helped out the grass and provided badly needed forage for dairy cattle.

Apparently there is ample reason for looking forward to a good harvest from the West on the whole.—Toronto Globe.

Superior Pulpwood

On Vancouver Island

Development in Paper Industry Small in Comparison With Resources

It is stated that two-thirds of the pulpwood of British Columbia—about 125 billion feet—is located on Vancouver Island and that it is of superior quality for paper making and very dense in stand. Moreover there is distributed over the Island about 500,000 undeveloped horsepower or available energy in rivers and waterfalls awaiting harnessing to supply power for the pulp and paper mills of the future. Though 42 million dollars has been invested in the pulp and paper mills of British Columbia, this development is comparatively insignificant in comparison with the province's resources, and its unrivaled position for export to the Western United States, Asia and Australia.

Will Take Aerial Photographs

For the first time since its inception as a game preserve, the first aerial photograph of the wood bison preserve at Fort Smith are to be taken by the Topographical Survey. Two planes will reach Alberta shortly, and if flying and photographic conditions are satisfactory, the whole survey should be made within a month. With recent extensions this great natural park is now 17,000 square miles.

An Old Age Industry at St. Andrews

Old Frank Atwin's four score years do not hinder him from turning out that part of New Brunswick, Many place names are drawn from the language of these people, the Canadian Pacific's hotel "Algonquin" at St. Andrews being a well-known example of this.

An old friend of Atwin's, John Nicholas, died last year at the age of 103 from an accident he met with while deer hunting. These hardy Indians are the descendants of Indians seen by Champlain and De Monts in 1604, and still speak their old language and observe their old tribal customs.

Canada's Trade In Furs Has Been Reaching High Levels During the Past Few Years

Ploughing Under Peas As a Green Manure

Detrimental Effect is Noticed in Following Crop

The ploughing under of peas as a green manure has resulted in a significantly lowered yield of wheat the following season as compared with the bare fallow. The detrimental effect has also been quite apparent in the oat crop following the wheat.

These results were obtained in a series of experiments covering 13 years, conducted at the Brandon, Manitoba, Experimental Farm. The yield of wheat following bare summer-fallow averaged 35 bushels per acre over 13 years against 34 bushels on land on which peat had been applied. The yield in early July of 20 bushels where the crop had been ploughed under in late July. The difference in the case of the oats following the wheat was still more striking. The ploughing under of peas possibly increases to some extent the nitrogen content of the soil, but moisture is dissipated in producing the green manure crop. The experiments were made on a rich loamy clay soil and the results have emphasized the fact that moisture is a greater factor in increasing yield than fertility in a soil which is lacking in the essential ingredients of plant food. The results are even more definite when the cost of seed and the extra labor involved in preparing a seed-bed for the peas are taken into consideration.

Less Electrical Power For Domestic Use

Five Countries Are Ahead of U.S. In This Respect

For a country so highly developed in up-to-date methods, it is surprising to learn that the United States is relatively backward in the domestic use of electricity. Switzerland, Japan, Denmark, Canada and New Zealand, the order named, are ahead of the United States in the proportion of homes wired for electricity. One factor that has a vital bearing on this situation is that many areas of the United States are lacking in water power necessary for the economic production of electric power. In that regard, Canada is singularly favored.

New Power Plant

The Carrot River Valley Mills, near Tidale, Sask., are installing a new lighting and power plant. The milling plant, which has a capacity of 160 to 120 barrels a day, is also to be electrified. When plans are completed there will be available to private users, at special rates, 100 k.w.

Before the entry of the British into the fur trade of Canada, the chief centres were Leipzig, Amsterdam, Paris and Vienna. The monopoly held by the Hudson's Bay Company and the commanding position it had won was such that the main current of the fur trade in America went to Great Britain; London became the leading fur market and so continues until recent years.

The Great War brought revolutionary changes in the fur trade among which was the establishment of powerful competing fur centres in Canada and the United States which dimmed the sale of American pelts on the London and other European fur markets. St. Louis began to hold fur auctions in the year 1915, but these were discontinued in 1924. New York fur auctions commenced in 1916 and those of Montreal in 1920, attracting buyers from all parts of the world. The combined value of the pelts sold at these three fur auctions totalled nearly \$100 million of dollars each year which is not greatly lessened by the discontinuance of St. Louis. Western Canada has also shown considerable enterprise. Winnipeg, Edmonton and Vancouver have established auction centres. A development affecting the Canadian commerce in furs is the provision made by the Provincial Government of Alberta through its Game Branch to enable farmer-trappers and others to dispose of their furs.

Canada's external trade in furs has very materially increased in recent years. Exports have risen from \$5,668,000 in 1914 to \$17,422,440 in 1926 and imports from \$2,755,440 to \$7,528,333. The capital investment is valued at about \$10,000,000. The number of fur skins treated is over 4 millions and commerce in furs has shown a marked increase in America especially in the last 20 years. Today the pelts of practically every fur bearer are being utilized.

A number of important problems have been met and to a large degree solved in the past few years by the Fur industry, but it has not, according to the National Resources Intelligence Service of the Department of the Interior at Ottawa, finally solved the vital factor of the future of the fur supply. That is mainly an economic problem and requires the full cooperation of the various interests affected. Among the contributing causes which have been a menace to wild life, might be mentioned the predatory birds and animals, laxity of protective laws and scarcity of legal protective sanctuaries where natural breeding may go on undisturbed, the advance of civilization through the development of agriculture, mining and the wood products industries, and the forest fires which ravage and destroy the fur bearers' natural home.

Reindeer Farming Is Being Investigated

Danish Experts Studying Possibilities in Barren Lands of Northwest

The founding of a reindeer industry in barren lands of the northwest territory is being delayed by the federal department of interior pending completion of an investigation by two Danish experts from Greenland.

The department has received an application from a British Columbia syndicate for permission to start a reindeer farm on the barren lands. However, there is considerable uncertainty as to the food resources available, and, until this is decided, the application will be suspended. The investigation is being conducted by Professor Peter Hansen, who entered the barren lands early in 1926 and are expected back this autumn. If their report is favorable the department will encourage the founding of the industry, and probably will start a government farm, bringing over a boat load of reindeer from Norway.

Lifting machines, constructed much like the modern elevator, with pulling ropes and winding drums, were used as early as 226 B.C.

"You look like a sensible girl, let's get married."

Ser—"Nothing doing. I'm just as sensible as I look."

WORLD HAPPENINGS BRIEFLY TOLD

The will of Sir Wm. Mackenzie, former president of the Canadian Northern Railway, Toronto, who died on December 5, 1923, has been probated in London. Sir William left an English estate valued at £17,000.

Dr. Julio Brevo, special medical health officer of Madrid, Spain, after nine months' study of disease prevention and control methods in American cities, is visiting Canada to pursue similar investigations.

A man born in England and a resident for fifty years of the United States, has contributed \$4,750 worth of bonds toward reduction of the British debt to the United States. This is his fourth donation.

The Soviet Military and Naval Court at Kronstadt condemned to death Commander Klepikoff, an officer in the Baltic fleet, who was accused of espionage in behalf of Great Britain.

Colonel Charles Lindbergh has been invited by the Canadian National Exhibition to visit Canada as the guest of the exhibition, which officials state they expect will be opened by the Prince of Wales on August 27 next.

Many of the red cedar totem poles that now stand as sentinels of the past at half-deserted Indian villages along the British Columbia coast are more than four centuries old, in the opinion of the Captain Timber Company.

Following on the visit of the British government director of airship development, accompanied by air ministry experts, the Union Government has decided to authorize the immediate placing of contracts for erection in South Africa of a mooring tower for airships.

The burden of responsibility for accidents occurring at unprotected railway crossings rests with the motorists, according to the tenor of three judgments rendered by Mr. Justice Dommers, of the Superior Court, Montreal, who dismissed three actions instituted against the Canadian Pacific Railway by relatives of three victims of an accident at Maskinonge.

Recommend Liver Diet

Believed to Have Beneficial Effect in Case of Anemia

Liver diet as a treatment for anemia was discussed by the Canadian and Ontario Medical Association in convention at Toronto.

Dr. F. J. Campbell, of London, Ontario, read a paper which concluded that the feeding of liver, whether from beef, calves, sheep, or pigs, has been proved very successful in combating pernicious anemia. He pointed out that as the duration of this disease is from five to ten years, it was too early to say that liver feeding was a cure. Results, however, after one year's experiment, were very promising.

Saskatchewan Livestock Pool
A total of 2,750 carloads averaging 1,565 carloads of livestock to be marketed during 1923, beginning June 1, with the Saskatchewan Livestock Pool started operation, have been received at the Pool headquarters to date.

China's Population Decreasing

**Due to Abnormally High Death Rate
Says Statistician**

China, with 400,000,000 millions of people, its crowded streets and villages, has a very low rate of population increase in recent years, largely because of the great proportion of death. This fact is shown by a new study of Chinese censuses since 1741, made by a Chinese Government statistician named Changchen Chen.

In 1741 the Chinese people numbered only about 25,000,000 more than the United States population of today, and in the fifty years following 1741 the population more than doubled, advancing at the rate of 15 to the 1,000 people every year. In the next half century the population increase showed down to less than five additional a year to each 1,000 people. From 1839 down to 1923 the rate of addition has gone down to only .81 a thousand. This, Mr. Chang says, is lower than the rate of population increase in any other country except France.

"The rate of increase of nations of the like size since 1850 has been 11 a 1,000," he says. "This means that the rate of increase of the Chinese population in modern times has been not quite one-third as fast as that of other countries."

The Chinese population reached the 400,000,000 mark back in 1925, according to the census figures. Since then it has advanced only to 523,270,000, and the statistician believes that this extraordinarily slow rate of advance is due to high death rates rather than low birth rates. China does not need any large increase of population at present; he adds, but high death rates are not healthy factors.

Countless thankful patients living today mourn the passing in 1926 of the author of the above quoted words and if Dr. Robert Bell's profoundly considered warning is now heeded, it is possible for the public to render the devastating Cancer Scourge a mere matter of history.

Chizhuan's diet is responsible for depriving the public of the abundant supply of organic salts essential to health preservation and the substitution of what have been truly described as "foolish foods" which create a superabundance of acids in the human body, resulting in the now practically universal complaint of constipation that is the inevitable forerunner of Cancer and also of many pernicious of all civilization's physical maladies.

The active irritants contained in pills, purgatives and laxatives, combined with their only partial relief, caused Dr. Robert Bell to soundly condemn their use as being injurious and dangerous. The method of curing constipation without drugs is disclosed in the last book presented to the writer by Dr. Bell, whose advice is quoted by the writer's copyright dietary which is mailed without charge to every Canadian and American purchaser of the English home Cancer Treatment. Detailed information concerning this treatment is also freely mailed on application to Charles Walter at 51 Brunswick Avenue, Toronto, 4, Ontario, Canada.

If sometimes the tea you are using does not taste so good it is not to do—see what kind of a package it is in. If it is in paper that is probably the reason. No chances are taken with Red Rose. It is packed in clean, bright Aluminum.

How to Avoid Cancer

That celebrated British surgeon and cancer authority, Dr. Robert Bell, M.D., F.R.C.P.S., &c., sacrificed his highly lucrative surgical practice when, after long years of exhaustive research and practical experience, he nobly published the following statement of vital import to the cancer-stricken civilized world:—

"Cancer is a blood disease, and its breeding ground is in the colon. X-ray rays, radium, whatever is used with every degree of violence, as a cure for cancer. From my knowledge of the disease I affirm that the knife has never cured Cancer in a single instance; but, on the contrary, has only succeeded in aggravating the disease and adding to the sufferings of the poor patient."

Countless thankful patients living today mourn the passing in 1926 of the author of the above quoted words and if Dr. Robert Bell's profoundly considered warning is now heeded, it is possible for the public to render the devastating Cancer Scourge a mere matter of history.

Chizhuan's diet is responsible for depriving the public of the abundant supply of organic salts essential to health preservation and the substitution of what have been truly described as "foolish foods" which create a superabundance of acids in the human body, resulting in the now practically universal complaint of constipation that is the inevitable forerunner of Cancer and also of many pernicious of all civilization's physical maladies.

The active irritants contained in pills, purgatives and laxatives, combined with their only partial relief, caused Dr. Robert Bell to soundly condemn their use as being injurious and dangerous. The method of curing constipation without drugs is disclosed in the last book presented to the writer by Dr. Bell, whose advice is quoted by the writer's copyright dietary which is mailed without charge to every Canadian and American purchaser of the English home Cancer Treatment. Detailed information concerning this treatment is also freely mailed on application to Charles Walter at 51 Brunswick Avenue, Toronto, 4, Ontario, Canada.

An Ancient Custom

Ostracism was a method employed by the ancient Athenians of banishing citizens whose influence was considered prejudicial to the state. A day for voting was fixed when the people wrote on small earthen tablets or shells the names of those whom they wished banished. Six thousand votes were necessary to drive a man into exile. To ostracize today means to ignore, to exclude from a certain social circle.

CANADA'S BISLEY TEAM

Members of the 1927 Canadian Bisley team who sailed for England on June 10th, on the Cunard liner *Ansonia*. Seated are: Brig.-Gen. G. Duff Stuart, commandant of the team of Vancouver on the left, and his adjutant, Major J. F. McManus, of Belleville, Ontario. Standing in the first row from left to right are: Sgt. W. H. Wood, P.P.C.L.L., Sgt. B. W. Beaumont, of Victoria; Pte. Potter,

Pte. J. H. Houlden, of Hamilton; Sgt. Bunnell, of Sussex, N.B.; Cadet L. J. McEvily, of St. John, N.B.; C.Q.M.S. A. Parnell, of Verdun; Lt. J. E. Foreman, M.C. Second row: G. H. Gray, Sgt. F. S. Glass, Sgt. McCabe, Cpl. Douglas, C.G.C.; Pte. R. C. Stock, R.C. Toronto; Sgt. G. M. Emshoff, M.M. Back Row: Lt. Kr. MacGregor, Ottawa; C.S.M. H. A. Hawkins, of Toronto; and Lt. D. T. Burke, Ottawa.

SUNDAY SCHOOL LESSON

JULY 3

SAUL CHOSEN KING

Golden Text: "What doth Jehovah require of thee, but to do justly, and to love kindness, and to walk humbly with thy God?"—Micah 6:8.

Lesson: I Samuel, Chapters 9-11.

Devotional Reading: Psalm 119:1-8.

Explanations and Comments

1. Samuel's Reminder of God's goodness. (10:17-19).—The prophet called the people together at Mizpah and reminded them that God had delivered them as a people in former days from the oppression of the Philistines, and that they should now be a people of God, and that they were rejecting God in demanding a king.

"Forget not all the sunshine of the way." By which the Lord hath led thee." "P. R. H. Havergal.

"Now therefore present yourselves before Jehovah by thy tribes, and by your thousands," was the conclusion of Samuel's speech. "A wise man said that to make the best of his time is to make the best of the time."

"But in the way of the world, the best is not always the best of the best. This is what Samuel did. He made the best of this crisis in national affairs in the right way by making the best of the time.

"But in our way, we, be it known, did not like it, and thereby he brought out the best that was in him—magnanimity, generosity, of spirit that rises above the world, that is courageous and revengeful and petty."

It is one thing to submit to the inevitable because we must; it is quite another thing to submit graciously and let the inevitable make the best of us.

II. The Selection of a King. (10:24-29).—The people selected a king of a king by lot. In the way of the brevity of the Lord. Important matters were often decided by lot in Old Testament times. In Proverbs 16:33, we are told:

The lot is cast into the gap; But the whole disposing thereof is Jehovah.

It is thought that the "gap" here stands for the "baulin" of an urn or vase. The seapegorat was chosen by lot. (Lev. 16:8); the location of the tabernacle was chosen by lot (Num. 28:13); the trespass of Achon was discovered by lot (Josh. 23:21).

The tribe of Benjamin was "taken" that is, chosen by lot, from among all the tribes; then the family of the Matrites from among all the families of clans (thousands); then the tribe of Saul from among all the tribes; then Saul himself. When they looked for Saul he had disappeared. The people then sought to know God's will either through the prophet, or through the priest of the Urn and Thimble on the breastplate of the high priest's ephod; see Exodus 28:30; Num. 27:21; Num. 33:26. The same came: "Behold he hath been found in the land of his banishment." They found Saul and brought him forth, and when it was seen that he was a head taller than any one who was to be their king, "See ye him whom Jehovah hath chosen, that there is none like him among all the people?" asked Samuel.

Memories for Peace River

Representatives of the Mennonite colony in Manitoba, recently left for Peace River to investigate the desirability of homesteading in that district. If present plans are put into effect about 25,000 of these people are expected to move into the Peace River country.

CANCER

Great Success of Cantassium Treatment

A well-known London surgeon and recognized authority on Cancer has recently said that Cancer is due to a deficiency of "Cantassium," which causes the cells to break down and become malignant in order that every one may learn

The Real Cause of Cancer

a remarkable book has been recently written which will be sent free to patients or any one who is interested in the discovery that Cancer is due to a deficiency of "Cantassium," which causes the cells to break down and become malignant.

The following is a list of the chapters:

1. Limitations of Surgery; 2. Some Doctors Oppose Operation; 3. The Case of the 100,000,000 CELLS BREAK DOWN; 4. Injurious Cooking Methods; 5. Injurious Habits; 6. Injurious Agents of Food; 7. Medicinal Endorsements; 8. Medicinal Endorsements of Food; 9. Medicinal Endorsements of Food; 10. The Thymus Gland; 11. The Liver; 12. The Adrenals; 13. Potassium Causes Life; 14. The Body Liable to Cancer; 15. The Body Liable to Cancer; 16. How a Doctor Can Help; 17. How to Avoid Cancer; 18. Death and Disease; 19. The Human Sciences and Old Age; 20. Human Complaints.

In this book are a number of interesting case-reports proving the great value of "Cantassium" Treatment. The treatment is simple and inexpensive. It can be had from the author in one's own home. Apply for free book to Charles Walter, 51 Brunswick Avenue, Toronto, Ontario, Canada.

Wanted Stained Glass Windows

**Natives of India Raised Money to
Beautiful Church**

In the centre of a Christian settlement in the jungle of Medak, Hyderabad, India stands a Christian church of the proportions of a cathedral. This is the central place of worship for the great community of Indian Christians, numbering over 50,000, who have gathered around the Rev. C. W. Postlethwait, a Wesleyan missionary, as a result of his thirty years' work in this native state.

The church was opened a year ago, but there seemed something lacking in its beautiful interior, despite the marbles and many tinted tiles. There was no stained glass in the windows. Six thousand Indian Christians, most of them former outcasts, have given the money for a window, designed by Frank O. Salbury, a well-known British artist. The subject is the Ascension, and Mr. Salbury says of the window: "The desire of the donors was that their church should be as beautiful as any Mohammedan mosque or Hindu temple, and I trust that my work will help them to realize their ideal of beauty as an aid to worship."

Canadians Coming Back

**Freight of Travel to U.S. Has Been
Reversed This Year**

No less than 75 moving vans conveying the household effects of returning Canadians have entered at the Port of Rock Island during the present season, according to a customs' official who stated that there had been reversal of the trend of travel from last year. In recent years, he said, the early summer months would see from 50 to 60 of these moving south, but this year the movement is northward. Enquiries showed that many of the returning Canadians are going back to the farms which they left.

Constructing Large Elevator

**New Building at Port Arthur for
U.G.G. of Canada**

Work has begun on the construction of a 5,000,000 pound elevator for the United Grain Growers of Canada at a cost of \$2,000,000, and is to be completed by February, 1928. This elevator will be the largest single working elevator, constructed in one unit, in the world. The building will measure 600 feet by 1,400 feet. It will be an all-concrete structure with 560 concrete storage tanks. Adjoining it will be a dock 1,000 feet long.

Produce Films in Canada

Britain's film quota law is having the effect of impelling producing companies of the United States to seek locations in Canada. Several have sent representatives to Calgary and Vancouver to look over the situation and select prospective sites for studios.

MORE HARMONY IS IN EVIDENCE AT GENEVA MEET

Geneva. — Conciliation is taking shape among the divergences of the powers in studying naval disarmament here. Great Britain's desire to reopen affairs arising from the Washington naval conference may be partially appeased by a proposal from the United States delegation to adopt a resolution agreeing that any arrangement made at Geneva will not preclude the agenda of the second Washington conference to be held in 1931.

There emerged from a discussion between Hugh Gibson, head of the United States delegation; and Admiral Saito of Japan, the possibility that the Japanese sensitiveness on the point of inferiority in cruiser strength might be soothed by a position to make the relative strengths of the United States and Japan 5-3-4 rather than 5-3.

Indications are that the Americans expect no insuperable difficulties in establishing the proportion.

In the British-American matter of re-opening the affairs of the Washington conference, it is pointed out that by the very terms of the Washington treaty the nations must concur to determine whether the developments of science justify any modification of the Washington regulations as to the size of battleships, cruisers and aircraft-carriers. This incidentally would bear on the recent trans-Atlantic flights of Lindbergh and Chamberlin, which have raised the question whether aircraft-carriers should not be increased in size and number to meet the rapidly developing speed of inter-continental air communication.

If the Japanese plan were accepted, it would give Great Britain a considerable higher percentage of war-craft than the United States, and some way must be found in juggling all three plans to establish parity, on paper at least, between the two Anglo-Saxon nations, leaving the United States people to decide whether they wish to build up to the treaty-declared parity.

Suffragists Hold Dinner

Celebrate Twentieth Anniversary of First One Imprisoned in London

London.—Twenty years ago June 21 the first suffragists saw the inside of Holloway Jail. This was Miss Billington, now Mrs. Billington Greig, who had emphasized her opinions on the women of Great Britain being deprived of the right to vote by creating a disturbance outside of the residence of Sir Henry Campbell-Bannerman, then premier.

Mrs. Billington-Greig, with some thirty women of the suffragist movement of that time, celebrated the twentieth anniversary of her imprisonment by a dinner.

Mrs. Emmeline Pankhurst and her daughter Christabel who were amongst the earliest sufferers of imprisonment in connection with the British women's movement for suffrage were not represented. Nevertheless, the gathering included some interesting persons.

Edmonton Boy Soloist

Edmonton.—Believed to be the first time that a Canadian boy has been chosen King's Chorister, Robert Henry Palmer, boy soloist of Holy Trinity Church and son of Col. R. Palmer, D.S.O., former commander of the 45th overseas battalion, has accepted the position of probation choir boy in St. George's Chapel, Windsor Castle, England. The offer came through Dr. Fellowes, who accompanied the Westminster choir on their Canadian tour a few months ago and heard Master Palmer sing here.

Ruined By Earthquake

London.—An earthquake on May 23 ruined the greater part of Liangchow, in the northern part of Kiangsu province near the Mongolian border. It is reported in despatches from Shanghai. A message received by the Daily Mail says the chief magistrate and many others were killed and that all the towers of the city gates and two pagodas, 2,000 years old, were demolished.

Judges Are Criticized

Importance of Co-operation Between Police Officers and Magistrates is Stressed

Vancouver.—Criticism of supreme and county court judges who quashed important convictions on technicalities of law without considering the seriousness of the crime involved was made by Police Magistrate H. C. Shaw before the opening session of the 33rd annual convention of the Chief Constables' Association of Canada here recently.

In stressing the importance of co-operation of police officers with judges and magistrates, he declared it should be greatest with the latter, who deal with crime and not laws.

Advocacy of elimination of municipal and political influence in police forces was made in the report of Assistant Inspector William Wallace, Toronto, secretary-treasurer of the association.

"I know of no change in our provincial statutes so urgent as the adoption of a law that will remove police department from political and municipal influences and interferences and place them under the control of a responsible and independent police commission," he said.

The Empire Educational Conference

Delegates Are Welcomed With Cordial Speech by Prince of Wales

London.—The Prince of Wales opened the Empire education conference in the board of education's offices with a brief speech which was well-coming. Later he chatted with the delegates and shook hands with each.

The proceedings were private, but the official report issued at the close reports the speech of Dr. F. W. Merchant, chief director of the department of education of Ontario.

Dr. Merchant declared the introduction of a more practical element into the primary course made children more interested, improved the attendance and led to the raising of the school-leaving age to 16 years. A greater flow into secondary or post-primary schools also was stimulated. It was now agreed that close co-operation between the school and employer was needed to prepare pupils for trade, he pointed out.

Filling Russia's Order For Canadian Horses

First Shipment Will Be Entirely From British Columbia

Ottawa.—The first shipment of Russia's order for 4,000 Canadian horses will leave Quebec about July 15, it was announced at the department of agriculture.

These horses numbering approximately 1,400 will be from the province of British Columbia. The remainder of the order will be filled by the purchase of horses in Manitoba, Saskatchewan and Alberta. The average price of the whole order of 4,000 head will be, it is estimated, around \$20 each.

Visible to Naked Eye

Minneapolis, Minn.—Pons-Winnecke, the comet without a tail, came within 3,000,000 miles of the earth June 21st, and was visible to the naked eye. The earth, according to Prof. William O. Beale, of the University of Minnesota, drew the comet from its course for a short time, but the greater magnetic forces of the sun drew Pons-Winnecke back to its regular path.

Trophy Comes West

Montreal.—Trans-Canada won the annual system fire brigade competition organized by the International Department of the Canadian National Railways and the trophy will go West for the first time and repose in Whistler for at least one year. Second place went to the Battle Creek, Mich., team; London, Ont., came third and Montreal, N.B., fourth.

• • • • •

Winnipeg 400 Miles Marathon Granite Pass, Oregon.—Mad Bull, Karlok Indian runner finished the 400 mile Redwood Highway marathon here 10 miles ahead of Flying Cloud, his nearest rival and 30 miles ahead of Melike, a Zuni, the third runner. He wins a prize of \$1,000.

Have Justified Claim For Self-Government

People of Irish Free State Are Prosperous

Chicago, Ill.—Hon. Timothy A. Smidley, Irish Free State Minister to Washington, speaking before the Norman Walt Harris Memorial Institute of the University of Chicago, declared that "the people of the Irish Free State have already, amply justified their claims to be allowed to govern themselves."

Prof. Smidley traced the progress of Southern Ireland since her recognition as a separate nation within the British Empire. A constitution had been written and the foundations for a prosperous business life had been laid. Economic prosperity had followed political freedom, and "the more this freedom is established the more the people attain equality of the status of the Irish Free State, and of Great Britain itself, and of the other Dominions, manifest itself in the ordering of her own life, the greater will be the moral bonds which bind her to her associates in the British Commonwealth of nations."

"The more this absolute equality is realized in fact the greater will become our friendship for Great Britain; the greater will be solidarity of the British Commonwealth through continent among the people of the Irish Free State and their kith and kin."

Will Attend Soviet School in Russia

Children of British Reds Sail for Moscow Without Passports

London.—The Daily Mail says that six children of British Communists have left London for Leningrad aboard the Soviet steamer Youssar, notwithstanding the Home Secretary's refusal to grant them passports.

Five boys about 12 years of age, and a girl of the same age, are voyaging to Russia in response to the invitation of Moscow, apparently for purposes of education.

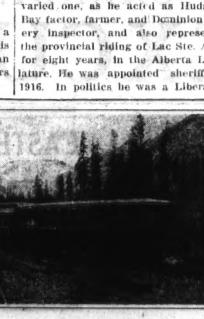

Moscow's invitation was announced on May 13 and after a discussion in the papers it was stated on June 13 that the Government had decided to refuse passports, thus establishing a precedent, as heretofore passports have not been refused unless the applicant had been convicted of a crime.

The next step was a declaration by A. J. Cook, secretary of the Miners' Federation of Great Britain, that a way would be found to send the children despite the Government's seeming to have been done.

Western Pioneer Dead

Sheriff Peter Gunn of Edmonton Had Varied Career

Edmonton.—Sheriff Peter Gunn, of the judicial ridings of Athabasca and Peace River, who came to Alberta 44 years ago from Scotland, to enter the employ of the Hudson's Bay Company, died June 21, at the age of 63 years. The life of this pioneer was a varied one, as he acted as Hudson's Bay factor, farmer, and Dominion fishery inspector, and also represented the provincial riding of Lac Ste. Anne for eight years, in the Alberta Legislature. He was appointed sheriff in 1916. In politics he was a Liberal.

C.P.R.'s New Mountain Car

One of the first photographs of the new type of mountain observation car being used successfully this season by the Canadian Pacific Railway Company. The car is seen attached to the rear of the Trans-Canada, the crack summer trans-continental of the C.P.R., just as it is about to leave its self behind the lofty peaks that surround the mountain resort of Banff. He wins a prize of \$1,000.

BRITISH LABOR IS OPPOSED TO SOVIET SLAYINGS

London.—The fervent hope that executions in Soviet Russia such as those of the recent 20 alleged counter-revolutionaries will cease was voiced in a resolution adopted at a joint meeting of the executive committee of the Labor Party and of the general council of the Trades Union Congress.

"While recognizing the Soviet Government's indignation at the murder of M. Volkoff (Soviet minister at Warsaw), the resolution said, "we are obliged to protest against the execution of persons innocent thereof as a reprisal."

The conference also adopted a resolution expressing "uncompromising opposition" to the Government's proposals for the so-called reform of the House of Lords."

"We are of the opinion that the House of Commons should be the supreme authority in legislation and finance and that the hereditary upper chamber should be abolished."

Would Purchase Paper Mills

Race Between Canadian and U.S. Companies to Secure Plant in Newfoundland

St. John, N.B.—A race between Canadian and United States interests to obtain a foothold in the Newfoundland pulp and paper industry developed when a large Canadian corporation notified the Government that it desired to purchase the paper mills at Corner Brook on the West Coast.

The International Paper Company of New York already was negotiating for this property.

The name of the Canadian company was not divulged but it was said the terms offered were considerably more favorable from the point of view of the government than those of the international. The great plant at Corner Brook was built by Newfoundland and British capital, the two governments guaranteeing the bonds of the enterprise. Recently the company operating the mills asked the government for permission to sell to the International at the same time asking for certain concessions for the latter corporation.

Changes King's Title

Royal Proclamation Has Been Received at Ottawa

Ottawa.—Official copy of the royal proclamation recently issued from Buckingham palace, changing the title of His Majesty the King, was received by the department of secretary of state.

The new title of His Majesty, which was approved at the Imperial Conference last fall, so as to accord with the altered state of affairs arising from the establishment of the Irish Free State as a dominion, is "George VI, by the grace of God, of Great Britain, Ireland and the British Dominions beyond the Seas, King, Defender of the Faith, Emperor of India."

Opens War on Spiders

Quebec.—Relentless war against automobile spiders and sumptuous suspension of the licenses of those caught exceeding the speed limit of the law is the ultimate bid down by Hon. J. L. Perron, Minister of Highways for Quebec. "Auto riding has become the great summer sport," said Mr. Perron, "but unfortunately the pedestrian can hardly venture on our highways without danger to life and limb."

Another Distance Flight Planned

Prague, Czechoslovakia.—Two Czechoslovak airmen, Captain Franz Malcovsky, and Lieut. Ludwig Pavlosky have announced their intention to fly from Prague to New York and return in August. Their plane and its motor will be of Czechoslovakian manufacture.

Bear in Ontario

Toronto.—The Ontario Liquor Control Board announced that it would allow the sale of bear by the leg and that there would be a reduction in prices. According to the announcement, buyers also will be able to purchase bear direct from the breweries.

The Wheat Pool Method Is Vindicated by Experience.

The fact that the Alberta Wheat Pool has increased its membership by some 14,000 farmers since it was formed, offers strong proof of the success of this farmers' marketing organization. The membership in 1923 was 25,000 (in round figures). Today it is approximately 38,000.

Acknowledge the Pool Has Helped.

The stabilizing effect of the operations of the Canadian Wheat Pool in the Wheat Markets of the World is acknowledged by leading Old Country importers, millers and bakers.

Practically all non-Pool farmers admit the Pool has helped and is helping them. There is no good reason why any farmer in Western Canada with grain to sell should not market it thru the Pool. Every new Pool recruit adds to the influences of the organization. Business men, professional men and statesmen all testify to the beneficial effects of the operations of the Wheat Pool.

Outside the private dealers in grain, and kindred interests

The Wheat Pool has no enemies!

Is the Pool Not Worthy of Your Support?

No matter what anyone says to the contrary, the Wheat Pool has exerted an upward tendency on prices both in and out of Canada. The Pool has meant fairer dealing to the farmers and a more satisfied and contented countryside. It has meant "better living" for Alberta farmers.

Are these not worthy objects? Has not the achievement of the Wheat Pool been a notable one? Is it not worthy of your active and loyal support?

The Second Series Contracts are now ready.

SEE CANADA IN CANADA'S DIAMOND JUBILEE YEAR, 1867-1927

Here and There

The estimated gross agricultural wealth of Canada is \$7,600,257,000 according to the Department of Interior.

Concluding a stay in Canada on their ranch near Kamloops, B. C., the Marquess and Marchioness of Exeter accompanied by Lady Winifred, Countess of Harewood, recently on the Canadian Pacific steamship Minnedosa for England.

An aeroplane passenger and freight service to the central Manitoba mine area was inaugurated on June 1 by the Western Canada Airways, which is making the first commercial service to be operated in the Province.

Foundation work is proceeding rapidly on the new addition to the C. P. R. grain elevators at Port McNicoll, which when completed, will have a storage capacity of 6,000,000 bushels, instead of the present capacity of 4,000,000 bushels.

A total of 1,334 English boys have already been moved from the Old Country and placed on farms in Quebec and Eastern Ontario by the British Immigration and Colonization Association according to the figures given out at the annual meeting of that organization.

According to figures of the Canadian Government, Canada led all countries of the world by a wide margin in the export of wheat from August 1 to September 31, 1926. In that period Canada shipped 167,795,000 bushels, her closest rival, the United States with 94,191,000 bushels.

Days of the covered wagon were replaced recently by Mr. and Mrs. W. G. Barker and six children arrived at Blairstown, Saskatchewan from Parshall, North Dakota, in an open truck. They had covered 1,200 miles in 12 days. The wagon, 19 head of horses and four wagons carrying their household effects and farm implements. They leased a half section of land.

General individual travel through the Canadian west is expected to be very heavy this year according to R. G. McCallum, passenger agent of the Canadian Pacific Railway at Winnipeg. Several important parties will be able to the number of tourists, especially through the Canadian Rockies region.

The life of John Pope, sailor aboard the American vessel *Nastar* was saved recently by instructions wirelessed by Surgeon Taylor of the Canadian Pacific Hospital in Minnedosa after Pope had been critically injured by a fall of sixty feet from the mast. The two ships were 160 miles apart when Pope was injured and the injured man was transferred to the C. P. R. ship and rushed to Quebec.

The Inner Tube Is Important

Unusual strength and endurance are built into Firestone Steam Welded Tubes to provide for the motorist greater efficiency and tire operation. The famous steam welding process gives you a unit air container free from holes and a permanent structure of increasing strength. Buy Firestones Red or Gray tubes for better motoring results.

The above may be examined and bought at Mr J F Clarke's old residence.

E. J. KIBBLEWHITE.

Duffield News.

On Sunday June 26, a well-known and highly respected resident of Gennessee passed to his reward in the person of Mr John McDonald. Deceased was born in Alexandria, Ont., and came west some 30 years ago. Besides his widow, he leaves to mourn his loss one son (John) at home, and two daughters, Mrs Marvin Wells, Gennessee, and Margaret of Edmonton. The funeral took place on Tuesday morning. Holy Mass being offered and services conducted by Rev Father Keenan of Spruce Grove.

Duffield's baseball team is going to Stony on Dominion Day, and will bring down quite a following, to help celebrate the Jubilee.

Spruce Grove News

The bills are out for a picnic and celebration to be held at Winterburn Community Grounds, on Thursday, July 7.

A very persistent rumor is current at present that a prominent local sportsman has fallen heir to a goodly sum of money thru a little wise investment.

Spruce Grove district will be well represented at the Jubilee celebration in Stony Plain on Dominion Day.

Fat butcher cattle are getting so scarce, "Scoty" is offering half a crown for the photo of a nice fat cow.

Mr Wagner has purchased a new Chevrolet car.

Broomhall on the Wheat Pool

Geo. Broomhall, probably the best posted authority in the world on international grain marketing, in an article in London Times, says: 'Competition is greatly curtailed and expenses reduced by centralized handling, while there is always a chance that a Pool dealing with millions of bushels may obtain very favorable freight rates. The limitation of selling competition is an important matter, and there is reason to think that it has been a powerful influence in preventing a bad slump in prices the current season. Before the Pools were in existence merchants were sometimes called to say that wheat was being hung at them, but it is not so now. The Pool's aim is to feed the market.'

Stony Plain and District.

Mr and Mrs Edwin Hoffmann left this morning on what they expect will be a six-weeks' motor cruise. They will spend the holiday in Calgary, and then move on to Banff.

Edmonton Bulletin: Mr and Mrs Leon Freifeld, of 10133 113th street, announce the marriage of their second daughter Stella, on Sunday, June 26th, to Mr Charles Aaron, of North Battleford, Sask.

Another shuffle has taken place in the positions of the local tonsorial artists. Mr Bauer moving from the butcher district over to Main street. Mike says these hair-notchers and shavers will keep on swapping till a good barber breaks in and gets the trade. In fact, two of the district's clever young men are at present attending the Kutenai Barber College, Edmonton, and intend setting up their barber pole in Stony on completing their term.

At the Glory Hills Baptist Church, on Friday evening last, June 24th, Miss Katherine Albrecht (daughter of Mr and Mrs Conrad Albrecht) was united in marriage to Mr Karl H Freitag, both of Glory Hills. A reception was held, after the ceremony, at the home of the bride's mother. The couple were given a very enthusiastic charivari by the young people of the district. Thru the unavoidable absence of young Mr Val Paier in Edmonton, the captaincy devolved on Mr Henry Zeiler, who had come up all the way from Holden for the occasion. At the conclusion of the serenade, the bridegroom gave the captain a very generous donation.

A dance is billed to be held at the Garden Valley Schoolhouse this (Thursday) evening, June 30. Good music.

Holborn U. F. W. A. are giving a dance at Holborn Hall Friday July 8. Barnes' orchestra.

Dr G B Thurston, dentist, is taking a vacation at present and will discontinue his trips to Stony for a short time. He will resume his practice the latter part of July.
